The **WINS project**, co-funded by the DG Employment of the European Commission, **aims at promoting Workers' Involvement in Social Economy Enterprises (SEEs)**, in selected countries in Europe. It also proposes to strengthen transnational co-operation between workers' and employers' representatives, as well as between social economy enterprises and trade unions in respect of employee involvement.

Moreover, **WINS encourages employees to know their Information, Consultation and Participation rights (ICP)** when they work for a (social) enterprise, and also **their rights and obligations which allow them to have sufficient information when they become an employee or owner of a worker-owned company.**
