

WINS

WORKERS' INVOLVEMENT IN
SOCIAL ECONOMY ENTERPRISES

The WINS project (2020-2022) aims to promote workers' involvement in social economy enterprises (SEEs) in Europe. It also strengthens transnational co-operation between workers' and employers' representatives, as well as between social economy enterprises and trade unions in respect of employee involvement.

Moreover, WINS encourages employees to know their rights to information, consultation and participation (ICP) when they work for a (social economy) enterprise, and also the rights and obligations which allow them to have sufficient information when they become an employee or owner of a worker-owned company.

OUTCOMES OF THE PROJECT

Online knowledge platform

A website with a collection of links to legal materials, good practices, project materials, news, videos and connections to previous projects on the topic of information, consultation and participation (ICP) rights

Transnational workshops

3 transnational meetings organised in Italy, Spain and North Macedonia with high-level leaders, leaders of umbrella organisations, managers of social economy enterprises, trade unions and support organisations, to discuss EU and national level laws on employees' involvement, the link between social dialogue and ICP rights, and other related topics

Local workshops

4 local meetings in Italy, Spain, Slovenia and North Macedonia with workers and members of social economy enterprises to present ICP rights and employees' involvement in the life of social economy enterprises

Information materials - leaflets and brochures

These materials will present ICP rights and their development in project countries

Videos

Videos will be produced to raise awareness about the topic of ICP rights and the link between SEE and trade unions

Final conference and final report

The outcomes and achievements of the project will be presented during the final conference in Madrid and in a final publication
